Because of the low cost of these plants, we can not furnish replacements, nor can we mail or deliver the packets. You will be reminded by post card when and where to pick up your order. Please pick up your order promptly when notified. We do not have storage facilities and will not be responsible for the condition of the plants if they are not picked up on time.

Tree Seedling Descriptions

Species	Growth Rate	Mature Height Width	Description
Colorado Blue Spruce <i>Picea pungens</i>	Slow to Medium	30-60' H 10-20' W	Noted for its hardiness and attractive blue color. Adaptable to various sites, prefers rich, moist, well drained soils in full sun. Also thrives on drier sites.
Norway Spruce <i>Picea abies</i>	Medium to Fast	40-60' H 25-30' W	Medium growing pyramidal tree that becomes very graceful in maturity. Prefers moist, well drained acidic soils; however, it is perhaps the most adaptable common evergreen tree to harsh conditions, it thrives under seasonal drought once established, and takes well to city pollution. One requirement is to not plant in wet soils, where it will die quickly.
White Pine <i>Pinus strobus</i>	Fast	50-80' H 25-35' W	Hardy, fast growing pine native to the eastern U.S. Loosely pyramidal as a young tree, becomes more irregular with age. Prefers well drained or dry sites. Long living tree with long, soft 2-5" needles.
River Birch <i>Betula nigra</i>	Medium	40-70' H 40-60' W	Tolerant to many soil conditions. Reddish brown exfoliating bark.
Kousa Dogwood <i>Cornus kousa</i>	Medium	20-30'	Flowering tree that produces white flowers in spring. Leaves are dark green in summer changing to reddish-purple or scarlet in fall.
Red Maple <i>Acer rubrum</i>	Fast to Medium	40-60' H 20-60' W	A rapid grower that can adapt to a wide range of soil conditions. Bright red flowers in spring followed by green leaves. Fall colors vary from yellow to scarlet. Will tolerate wet soils, prefers moist, well drained soil.
Pin Oak <i>Quercus palustris</i>	Fast	60-70' H 60-70' W	Fast growing tree with bright red fall color. Is commonly used as a street tree.
Ohio Wildflower Seed Packet 1 ounce packet will plant approximately 250 square feet	Contains a mixture of the following: Crimson Clover, Golden Alexanders, Culver's Root, Smooth Oxeye, Maximilian Sunflower, Partridge Pea, Lanceleaf Coreopsis, Plains Coreopsis, Illinois Bundleflower, Wild Senna, Purple Coneflower, Wild Bergamot, Greyhead Coneflower, New-England Aster, Black-eyed Susan, Upright Coneflower, Common Evening Primrose, Brown-eyed Susan, Canada Goldenrod, Gray Goldenrod, Foxglove Beardtongue, Purple Prairie Clover, Western Yarrow, Common Milkweed, Swamp Milkweed
